

'Spectacle' Exhibition to Open at Science World in Vancouver

Visually stunning experience based on National Geographic book reveals some of the most awe-inducing moments from around the world

Photos and videos can be found at this [link](#)

Vancouver, BC, December 16, 2024 — Science World visitors will experience an array of wonders, unusual phenomena, and amusing curiosities in the new National Geographic exhibition, "[Spectacle](#)" presented by OmniVita. In this exquisite photography exhibition, National Geographic showcases extraordinary moments including natural formations of all scales, the beauty of the human experience, and more. "Spectacle" will remain open at Science World from Friday, December 20, 2024 until May 19, 2025.

The exhibition, inspired by the book, *SPECTACLE: Rare and Astonishing Photographs*, features striking images shot by some of the world's finest photographers of sights that are as remarkable as they are unforgettable. The photographs reveal moments of celebration and moments of utter chaos. They reveal awe-inspiring life forms and capture our miraculous planet in all its glory—emphasizing the need to protect all this wonder. Each image enlightens and inspires allowing visitors to marvel at the diverse, complex, and truly remarkable planet on which they live.

"As a science centre dedicated to igniting wonder, we are thrilled to present this stunning collection of photography from National Geographic," said Fiona Cole-Hamilton, Vice President of Experience at Science World. "Showcasing people, places and the planet, these striking images will captivate viewers – inspiring audiences to look differently at the spectacular world around them."

"We are proud to support this stunning collection of photographs of captivating moments in time," said Donna Molby, President & CEO at OmniVita. "Visitors will be enthralled by the work of these talented photographers from National Geographic."

Spectacle opens at Science World on Friday, December 20th, 2024. A supplemental charge starting at \$4.15-\$6.50 per person, in addition to general admission or membership fees, is required to view Spectacle. Learn more at scienceworld.ca.

About the National Geographic Society

The National Geographic Society is a global nonprofit organization that uses the power of science, exploration, education and storytelling to illuminate and protect the wonder of the world. Since 1888, National Geographic has pushed the boundaries of exploration, investing in bold people and transformative ideas, providing more than 15,000 grants for work across all seven continents, reaching 3 million students each year through education offerings, and engaging audiences around the globe through signature experiences, stories and content. To learn more, visit www.nationalgeographic.org.

About Science World

Science World is a charity that provides engaging and playful STEAM (science, technology, engineering, art & design and math) learning experiences. Visitors to the iconic dome in Vancouver explore interactive, hands-on exhibits, galleries and events that nurture discovery and inspire connection with their natural, physical and built environments. Beyond the dome, outreach programs inspire students, teachers and families in every region of British Columbia through virtual and in-person visits and programs. Science World's mission is to ignite wonder and empower dreams through science and nature. And their vision is a sustainable future filled with critical thinkers, problem solvers and wonder seekers.
